DETAILED ACTION

Specification

1. The substitute abstract submitted 4-15-02 is approved.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The newly added negative claim limitation to "without requiring direct communication between the users" does not appear to be originally disclosed.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-6, 8-11, 24-28, and 34-37, 39-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over Doggett et al in view of Kasai et al.

Doggett et al discloses what is described in the previous office action.

Doggett et al does not disclose sending notification before a value is: allocated, transferred, or connection is received from a second party/user.

Kasai et al discloses notification to both parties/users (col 5, lines 20-67; col 6, lines 1-19) for an electronic money payment. It would have been obvious to one with ordinary skill in the art to include sending notification before a value is: allocated, transferred, or a connection is received from a second party/user because of what is taught by Kasai et al. Kasai et al teaches notification for purposes of verifying if correct parties/users are connected (col 5, lines 30-32).

6. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Doggett et al in view of Kasai et al as applied to claims 1-6, 8-11, 24-28, and 34-38 above, and further in view of Remington.

The claims are rejected as described in the previous office action.

7. Claims 12-19 and 29-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Doggett et al in view of Kasai et al as applied to claims 1-6, 8-11, 24-28, and 34-38 above, and further in view of Nikander et al.

The claims are rejected as described in the previous office action.

8. Claims 20-23 rejected under 35 U.S.C. 103(a) as being unpatentable over Doggett et al in view of Kasai et al as applied to claims 1-6, 8-11, 24-28, and 34-38 above, and further in view of Downing et al.

The claims are rejected as described in the previous office action.

Response to Arguments

9. Applicant's arguments with respect to claim 1-37, 38-44 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
